## FITNESS ROUTINES INTRODUCTION

CD Two

## EXERCISE ROUTINES INTRODUCTION

Welcome to the Australian College of Sport and Fitness' CD Two containing a range of sample exercise routines. These are designed to be used directly with clients or as a reference tool for Fitness Professionals to begin composing workout routines.

The general aim of each routine is indicated by the routine title (indicated below) and then describe further in their introduction. Following the introduction, ACSF has provided warm up, workout tips and cool down advice to help the Fitness Professional give an all round service.

Each routine contains the exercise name, a brief description of the exercise, a photo of the exercise and a suggested amount of sets, reps and rest to be completed with each exercise. The sets, reps and rest can be modified by the trainer to target different components of fitness.

---
